Overview of Yatomi City

Yatomi City is an elongated stretch of land with a distance of 9 km from east to west, 15 km from north to south, and an area of 48.28 km². The city is a riverside region developed along the downstream area of the Kiso River and famous as Japan's number one city of ornamental goldfish. Located within 20 km east of Nagoya City, the southern region of the city extends through the Nagoya Port Western Coastal Industrial Zone to the Port of Nagoya's harbor area, and the western region of the city is adjacent to Mie Prefecture.

The northern region is positioned as an urban life zone and serves as a commuter town, situated approximately 15 minutes by train from Nagoya City. Also, the central region is positioned as a riverside rural zone with the ornamental goldfish industry and agricultural sector, and the southern region a high level harbor zone. The city is promoting the enhancement of piers in the harbor area, as well as development projects utilizing its favorable location of being close to the Ise-wangan Expressway and Chubu Centrair International Airport. As of March 1st 2019, the population of the city is 44,405 with 17,822 households.

Message

While being an important point of railway transport and highway network, Yatomi City offers extensive sightseeing facilities such as Kainan Kodomo-no-Kuni, Yatomi Wild Bird Park, and Mitsumataike Park, as well as indigenous products like goldfish, rice, tomatoes, etc., and we have a lot of visitors each season.

Making full use of the characteristics and resources of the area, Yatomi City is vitalizing tourism and transportation, working to promote the city's features such as safety, comfort, nature, culture, beauty and f to develop a vigorous and vibrant city.

We will continue to work together with the citizens, cherish our love and pride in our hometown Yatomi, and develop a "City of Choice" for everyone.
